CAREER OBJECTIVE

Electronics and Telecommunication Engineering student with strong interest in embedded systems, robotics, and PCB designing. Technical Head of the e-Yantra Robotics Club with hands-on experience in custom development board PCB design, firmware development, Arduino programming, PID control, and hardware debugging. Seeking an internship to apply embedded firmware and PCB design skills in real-world projects.

EDUCATION :

- **B.Tech – Electronics & Telecommunication Engineering**
  JD College of Engineering and Management, Nagpur | **2027**

INTERNSHIP EXPERIENCE :

Embedded Systems Intern – Karmic Nexus IT Solutions (45 Days)

- Worked on embedded projects involving firmware development, circuit design, and system testing.
- Designed and debugged PCBs, gaining hands-on experience in hardware bring-up.

EMBEDDED & TECHNICAL SKILLS :

- **Microcontrollers:** Arduino (UNO, Nano), STM32, ESP8266 / ESP32
- **Embedded Concepts:** GPIO, PWM, ADC, Timers, Interrupts, Serial Communication
- **PCB Design (KiCad, Altium Designer):** Schematic capture, PCB layout, footprint creation, DRC, routing
- **Hardware:** Power integrity, circuit debugging, prototyping
- **Programming:** C, C++ (Intermediate), Java (Basic)

PROJECTS :

- **High-Speed Line Follower Robot :** Built a high-speed line follower using Arduino and PID control; competed at Technoxian World Cup Championship 2025.
- **Custom Development Board – PCB Design:** Designed microcontroller-based boards from schematic to PCB, including power regulation and debugging.

CERTIFICATIONS :

- Firmware Engineering – **L&T EduTech**
- AI/ML for Geodata Analysis – **ISRO**

EXTRACURRICULAR & ACHIEVEMENTS :

- **Technical Head – e-Yantra Robotics Club:** Mentored juniors in embedded systems and PCB design
- **Technoxian World Cup Championship, Delhi** – Fastest line follower robot
- **Advantage Vidarbha 2025, Nagpur** – Technical showcase
- **Circuit Making:** 1st Rank (JDCOEM), 2nd Rank (TGPCET)

SOFT SKILLS: Teamwork | Communication | Fast Learner | Hands-on Approach

INTERESTS: Non-fiction reading | Embedded Systems | PCB Design
